Student Comments

What did you find MOST helpful about David Miller's teaching approach and course content?

Comments

His lectures were very easy to follow and I liked how his slides were very clear when he was presenting the course material.

What did you find LEAST helpful about David Miller's teaching approach and course content?

Comments

He is kind of bland and makes it easy for students to fall asleep in class. I also do not like how we had to do so many article outlines, and how he spent so much time discussing the articles in class that were very intense and did not always make sense, as opposed to discussing real life events, or more from the textbook.
